CASE STUDY

DESCRIBE YOUR ON-BOARDING EXPERIENCE WITH CLEARHUB?

Painless. There are a few documents to sign. Initially printouts and scans were needed but during the process it turned out that DocuSign had been implemented and that made things very quick and easy. The timesheeting is online in Google docs and is easy to use.

WHAT SUPPORT HAS CLEARHUB OFFERED FOLLOWING THE ON-BOARDING PROCESS?

Regular contact to ask how things are going. Good, clear and concise discussions around the contract and things in general.

IN YOUR OPINION, WHAT MAKES CLEARHUB DIFFERENT?

It's less "fire and forget." In the normal course of engaging with a client I'd sign the forms, send in my timesheets and other than that we'd barely communicate until it was time to part ways.

WOULD YOU RECOMMEND CLEARHUB TO A CONTRACTOR/FRIEND, AND IF SO WHAT WOULD YOU SAY?

I already have on the merit that they are persistent in trying to find you a contract without ever being pushy about it. As a result I've had many pleasant conversations with ClearHub agents.

LIKEWISE, WOULD YOU RECOMMEND CLEARHUB TO CLIENTS, AND IF SO WHAT WOULD YOU SAY?

I already have. Mostly on the same basis of why I recommend them to other contractors.
